

We invite you to join the world's preeminent society for research and education in the field of biomedical lasers and energy-based devices.

## JOIN TODAY!

- » Online: [aslms.org](http://aslms.org) | Member Services | Membership | Join | Renew
- » Email: [information@aslms.org](mailto:information@aslms.org)
- » Call: 877-258-6028

**“** ASLMS is a breeding ground for new devices, applications and shared experiences. If you look back, a lot of history is made at ASLMS. Be a part of history, join ASLMS today!

Dieter Manstein, MD, PhD  
ASLMS President 2019-2020

In-person and online resources offer a wide range of valuable educational opportunities.

## PRECEPTORSHIP

Take advantage of a preceptorship to round out your own knowledge or share your expertise. This program matches experts in the field with those thirsty for knowledge. Visit a fully functioning practice and spend a week with someone who could influence the direction of your career!

## MENTORSHIP

Connect with senior members to work on a specific project over a one-year period. Choose from a list of board directed projects or suggest your own.

## ANNUAL CONFERENCE ABSTRACTS

Gain recognition for your research at the ASLMS Annual Conference, the most prestigious meeting of minds in the field of biomedical lasers and energy-based devices worldwide. Hundreds of abstracts are accepted in a range of categories each year.

## LASER AESTHETICS COURSE

The Laser Aesthetics Course offers a small, intimate educational setting where you can interact with key thought leaders in the field of biomedical lasers and energy-based devices focused on aesthetic medicine.

## CAREER CENTER

The ASLMS Career Center is your pathway to new opportunities! Whether it is finding the next superstar to work with or identifying a career opportunity that will enhance your future, the ASLMS Career Center can assist.

## RESEARCH GRANTS

Are you looking for funds to support your research project? ASLMS annually awards research grants fostering the development and use of lasers and other energy-based technologies in medical and surgical applications.

- » Standard Research Grant\* - research grants are funded for one year with a maximum award of up to \$70,000.
- » Student Research Grant\* - up to four student grants of \$5,000 each may be awarded each year.

\*Refer to <https://aslms.org/for-professionals/grants-awards/research-grants> for qualification details.

## MEMBERSHIP DIRECTORY AND PHYSICIAN LOCATOR

As a member, you can benefit from connecting with those practicing in the field and sharing knowledge!

## COMMITTEE INVOLVEMENT

ASLMS membership can open doors to amazing opportunities. Our committee members and leadership team shape the future of energy-based devices in medicine each year. We encourage involvement at all levels and welcome participation.

## ANNUAL CONFERENCE

Take advantage of the networking and knowledge available at members-only pricing! The ability to meet face to face is invaluable. The ASLMS Annual Conference allows you to meet and interact with luminaries, key thought leaders, industry partners, scientists and researchers in the area of biomedical lasers and energy-based devices.

 *We are a diverse group of clinicians, scientists and industry representatives who get together in one place to advance the use of lasers and energy-based devices in medicine. The most essential part of the conference for me is interacting with a large array of wonderful colleagues - for both learning and having FUN.*

Eric Bernstein, MD, MSE  
ASLMS President, 2018 -2019

Connect and interact with key thought leaders driving the future of lasers and energy-based devices in medicine.

Through ASLMS social media channels, member communications and the Society's journal *Lasers in Surgery and Medicine*, we keep cutting edge information and opportunities top of mind.

### EDUCATION EXPRESS

Learn about the latest in ASLMS educational offerings through this weekly newsletter. Gain access to live events, courses, and on-demand content.

### LIGHT READER

Delivered to members via email, our eNewsletter focuses on current issues facing the laser and energy-based device community, interesting highlights of opportunities for education and networking and the latest news in the field.

### LASERS IN SURGERY AND MEDICINE JOURNAL

Stay on top of cutting-edge research with your free subscription to *Lasers in Surgery and Medicine (LSM)*, the most prestigious journal for researchers and users of biomedical lasers and energy-based devices.

### ONLINE LEARNING

Hear first-hand from key leaders in the industry about clinical processes and new developments that can make the difference in your practice and for your patients!

### STANDARDS OF PRACTICE

Not sure where to turn to make sure your practice is compliant? Check out the ASLMS Standards of Practice including safety protocols to ensure that you and your team are following the advice of experts in the field.

### ANNUAL CONFERENCE

Be the first to see the latest, cutting edge developments. The ASLMS Annual Conference showcases hundreds of abstracts from some of the world's best researchers. Courses and workshops offer the opportunity to learn the latest laser and energy-based medicine and surgery technologies, techniques, protocols and applications.
