# 40 YEARS ASLMS 2021 Virtual

ASLMS Annual Conference on  
ENERGY-BASED MEDICINE & SCIENCE  
May 15-16, 2021

Celebrating  
40 YEARS  
OF EXCELLENCE!

200+ PRESENTERS

44 SESSIONS

40+ CME CREDITS

140+ ABSTRACTS,  
EPOSTERS &  
WHITE PAPERS

34 EXHIBITORS

## DISCOVER : LEARN

The largest offering of topics focused on the latest advances in laser and energy-based medicine.

ASLMS 2021 Program Chairs:

Anne M. Chapas,  
MD

Merete Haedersdal,  
MD, PhD, DMSc

Nathan S.  
Uebelhoer, DO

For the latest details, schedules, disclosures, and CME/CE credit information visit [conference.aslms.org/2021](http://conference.aslms.org/2021)

This activity has been approved for *AMA PRA Category 1 Credit™*.

## SATURDAY, MAY 15, 2021

8:15 AM - 8:45 AM

### NON-CME ASLMS Members' Business Meeting

LIVE ONLY

Be a part of the Society's future. The 2021 Business Meeting will have several items on the agenda that will require member approval. The agenda is published on [aslms.org](http://aslms.org).

9:00 AM - 10:30 AM

### Plenary Session

Join the ASLMS as we celebrate 40 years of laser and energy-based device innovations. Congratulate our award winners and be inspired by featured speakers who represent ASLMS history.

Thomas Rohrer, MD,  
ASLMS President

40 Years in 40 Minutes

Speakers:

J. Stuart Nelson,  
MD, PhD

David H.  
Sliney, PhD

John A.  
Parrish, MD

R. Rox Anderson,  
MD

10:30 AM - 10:45 AM

### NON-CME Industry Webinar

BTL | The HIFEM Journey - Past, Present, Future

Industry Presenters: David J. Goldberg, MD, JD and Bruce E Katz, MD

10:45 AM - 12:00 PM

### Abstract Session | Clinical Applications A

Section Chairs:

Keyvan Nouri, MD,  
MBA

Fernanda H.  
Sakamoto, MD, PhD

Albert Wolkerstorfer,  
MD, PhD

Moderators: Lilit Garibyan, MD, PhD; Omar Ibrahim, MD, PhD

HOT TOPICS:

- » Early treatment of Port-Wine Birthmarks
- » ASLMS New Beginnings Program to remove radiation marks

SUB-TOPICS:

- » Vascular
- » Pigmented Lesions and Tattoo
- » Ablative / Non-Ablative

10:45 AM - 12:05 PM

### Abstract Session | Basic Science & Emerging Technologies

Basic Science

Translational Research

Section Chairs:

Martin Purschke,  
PhD

Narasimhan  
Rajaram, PhD

Jill S. Waibel, MD

HOT TOPICS:

- » Combined Reflectance Confocal Microscopy – OCT in Diagnosis and Assessment of Squamous Cell Carcinoma
- » Cooling of Visceral Adipose Tissue for Selective Cryolipolysis
- » The Effects of Large Area Fractional Photothermolysis Treatment on Mouse Metabolism
- » Cutaneous Pharmacokinetics and Biodistribution of Nivolumab In Vivo Following Topical Laser-Assisted Delivery and Intradermal Injection

SUB-TOPICS:

- » Telemedicine
- » HIFEM
- » Photomedicine
- » RCM and OCT
- » Animal-Based Preclinical Studies
- » Preclinical Therapeutics
- » Imaging and Diagnostics
- » Jet Injector - Tissue Interaction
- » Laser-Tissue Interaction
- » Laser-Assisted Drug Delivery

10:45 AM - 12:10 PM

**Abstract Session | Clinical Applications B**

**Section Chairs:** Keyvan Nouri, MD, MBA; Fernanda H. Sakamoto, MD, PhD; Albert Wolkerstorfer, MD, PhD; **Moderators:** Zeina Tannous, MD; Molly Wanner, MD, MBA

**HOT TOPICS:**

- » Cellulite Improvement Resulting from a Single Non-invasive Treatment with Rapid Acoustic Pulse Device

**SUB-TOPICS:**

- » Oncology
- » Skin Cancer
- » Body Contouring - Cellulite and Electrical muscle stimulation (EMS)
- » Combination Therapies

**NON-CME Industry Webinars**

12:15 PM - 12:30 PM

Sciton | Praise to the Platform - mjoule provides treatment options from head to toe!  
Industry Presenter: A. Jay Burns, MD

12:15 PM - 12:30 PM

Softwave | SUPERB™ the Newest in Ultrasound Technology  
Industry Presenters: Anne Chapas, MD; Suzanne Kilmer, MD

12:15 PM - 1:00 PM

Solta Medical | Diode vs. Erbium/Thulium: Is there room in your practice for both?  
Industry Panel: Jeffrey Dover, MD, FRCPC; Suzanne Kilmer, MD; Paul Friedman, MD

12:30 PM - 12:45 PM

Cherry Imaging | Title TBD

12:30 PM - 12:45 PM

Lutronic | Intelligent 3rd Generation Muscle Activation with Accufit™  
Industry Presenter: Anne Chapas, MD

12:45 PM - 1:15 PM

Merz Aesthetics | Ultherapy: The Gold Standard  
Industry Presenter: Jeremy Green, MD

12:45 PM - 1:15 PM

Candela | Vbeam Pearls: 20 Years of Experience  
Industry Presenters: Paul Friedman, MD; Girish Munavalli, MD, MHS, FACMS

1:15 PM - 2:15 PM

**NON-CME Magic Wand: Lab to Clinic**

Translational Research

Learn the process of biomedical innovation and how you can get involved in problem-based research and innovation.

**Speakers:** Iris Rubin, MD; Beth Drolet, MD

**Sponsored By:**

**Course Directors:**

R. Rox Anderson, MD

Lilit Garibyan, MD, PhD

2:30 PM - 3:45 PM

**Parade of Specialties and Dazzle Talks**

Basic Science | Translational Research | GU Health

Enjoy perspectives from the experts in multiple specialties. Each section is followed by a live Q&A opportunity with the speakers.

**PARADE OF SPECIALTIES**

Pof. Theo Seiler, MD, PhD  
*The Femtosecond Laser: 20 Years of Innovation*

Yona Tadir, MD  
*From Conception to Menopause in 40 Years*

Praveen Arany, BDS, MDS, MMSc, PhD  
*Lasers in Dentistry - Surgical and Non-Surgical Applications*

Juanita Anders, PhD  
*Photobiomodulation Advances Propel Therapeutic Applications in Multiple Specialties*

**DAZZLE TALKS**

David E. Fisher, MD, PhD  
*Control of Pigmentation: Modulation of Skin Melanins and Topical Agents to Regress Congenital Giant Nevus*

Keshav K. Singh, PhD  
*Mitochondria as Reversible Regulators of Skin Wrinkles and Hair Loss*

**TECH TOOLS**

**Virtual Event Platform**

Grab your favorite beverage, make yourself comfortable, and get ready to experience an amazing virtual experience! Our event platform is top-notch, easy to navigate, and the next best thing to being there. For the most optimal experience, check your internet connection and use a Chrome or Firefox browser. After you register, watch your email on May 14 for the link to the virtual platform.

**Mobile App**

Need a breather from the desktop? The **ASLMS Conference App** allows you to attend sessions and connect with your colleagues – all while on the go!

- » Review and bookmark sessions, speakers, and exhibitors. Save sessions to your device calendar.  
*Note: sessions bookmarked in the app will not appear on your schedule in the event platform.*
- » Watch sessions through the app!
- » Chat and ask questions during sessions.
- » Connect one-on-one with colleagues and exhibitors.

Download the app today to get ready! Look for **ASLMS Conference** in the App Store or Google Play. Be sure to allow notifications to stay up to date on conference news!

**MOBILE APP SPONSORED BY:** Allergan Aesthetics & Lutronic

4:00 PM - 5:30 PM

### NON-CME Tech Connect

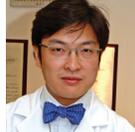

GU Health

This conference favorite session is where experts openly share their personal procedure and device preferences. Presentations for each topic section are followed by a live audience Q&A segment. Topics for 2021 include:

#### Section Chairs:

Eric F. Bernstein, MD, MSE

Henry H.L. Chan, MD, PhD, FRCP

### PICOSECOND DOMAIN DEVICES

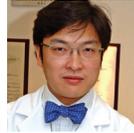

Speakers:

Omar Ibrahim, MD, PhD

Douglas Wu, MD, PhD

Henry H.L. Chan, MD, PhD, FRCP

Sponsored By:

### WOMEN'S HEALTH

Speakers:

James Mirabile, MD

Robert E. Grove, PhD

Macrene R. Alexiades, MD, PhD

Sponsored By:

### BODY CONTOURING

Speakers:

Bruce E Katz, MD

Mathew M. Avram, MD, JD

Suzanne L. Kilmer, MD

Sponsored By:

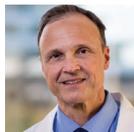

### SCAR TREATMENT

Speakers:

Jill S. Waibel, MD

E. Victor Ross, MD

Peter Shumaker, MD

Sponsored By:

# SUNDAY, MAY 16, 2021

9:30 AM - 10:30 AM

### Early Career Pearls for Clinical Practice

Novice

Learn tips on proper technique and safe use of laser, plus review a standard protocol for treatment consultation that make the process fluid and easy to follow.

Course Director:

Kelly Stankiewicz, MD, FAAD

9:30 AM - 10:30 AM

### NON-CME Clinical Research Pearls: All You Need to Know About FDA, IRB, and Industry

Novice

**Panelists:** Jay Bhawalkar, PhD; Mathew M. Avram, MD, JD; R. Rox Anderson, MD; Shlomit Halachmi, MD, PhD; Neil Ogden, MS BME

Course Director:

Jeffrey S. Dover, MD, FRCP

Learn about the clinical research IRB's and the FDA approval process. Panelists will be available for chat during the session.

10:30 AM - 10:45 AM

### NON-CME Industry Webinar

**Sofwave | Key Industry Leaders Exclusive Panel**

**Industry Panelists:** Shimon Eckhouse PhD; Ruthie Amir, MD; Barry DiBernardo, MD

10:45 AM - 11:42 AM

### Abstract Session | Early Career Clinical and Scientific

Novice

#### HOT TOPICS:

- » Efficacy of non-ablative fractional laser (NAFL) + topical tranexamic acid for melasma
- » Low-level laser therapy (LLLT) for lichen planopilaris
- » Fat reduction using a 1060nm diode laser

#### Section Chairs:

Andres Erlendsson, MD, PhD

Kachiu C. Lee, MD, MPH

#### SUB-TOPICS:

- » Combination Therapy
- » LLLT
- » Oncology
- » Body Contouring
- » Diagnostics & Imaging - Fat Metabolism and Scars
- » Laser Education in Dermatology Residencies

10:45 AM - 12:05 PM

### Abstract Session | Clinical Applications C

**Section Chairs:** Keyvan Nouri, MD, MBA; Fernanda H. Sakamoto, MD, PhD; Albert Wolkerstorfer, MD, PhD; **Moderators:** Yakir Levin, MD, PhD; Oge C Onwudiwe, MD

#### HOT TOPIC:

- » Lower Energy Settings with Nano-Pulse Stimulation (NPS) to Treat Sebaceous Hyperplasia

#### SUB-TOPICS:

- » Body Contouring - High-Intensity Focused Electromagnetic (HIFEM) and Radiofrequency (RF)
- » NPS
- » Ablative / Non-Ablative and RF Microneedle

10:45 AM - 12:15 PM

**Abstract Session | Clinical Applications D**

**Section Chairs:** Keyvan Nouri, MD, MBA; Fernanda H. Sakamoto, MD, PhD; Albert Wolkerstorfer, MD, PhD; **Moderator:** Jeremy A. Brauer, MD

**HOT TOPIC:**

- » Photobiomodulation: Strong Evidence for Prevention of Acute Radiodermatitis

**SUB-TOPICS:**

- » Photobiomodulation
- » Genitourinary Health
- » Scars and Acne
- » Pigment Diagnostics
- » Pigmented Lesions - Melasma

12:15 PM - 1:15 PM

**ePoster Town Hall Presentations - Session 1**

Special Clinical and Scientific ePoster Town Hall sessions will feature top ePosters, presented live, with an opportunity for audience questions. Topics in this session include pigmented lesions and ablative/non-ablative treatments.

**Section Chairs:**

Hans-Peter Berlien, MD

Anthony M. Rossi, MD

12:15 PM - 1:15 PM

**NON-CME Industry White Paper Presentations - Session 1**

Industry White Papers are focused on research and/or application of laser, light, and energy-based devices for biomedical application or product research in combination with such devices. Topics in this session include synchronous ultrasound, analgesia, and combining radiofrequency and dynamic muscle activation.

**Section Chairs:**

Jason Pozner, MD

Lesley Clark-Loeser, MD

1:15 PM - 2:15 PM

**NON-CME Celebration of ASLMS Women in Energy-Based Devices**

**40 Light Years: Illuminating Women in Lasers and Light Devices**

The 6th Annual Celebration of ASLMS Women in Energy-Based Devices (WEBD) will highlight the excellence of women involved in the ASLMS. Attendees will enjoy inspiring speakers and panelists. WEBD committee members will be available for chat during the session.

Illuminating Women in Lasers and Light Devices

**WEBD Committee Chair:**  
Fernanda Sakamoto, MD, PhD

**Featured Speaker:**  
Kristen Kelly, MD

**WEBD Committee:** Anne Chapas, MD; Sheetal Davitt, Christine Dierickx, MD; Mona Sadeghpour, MD; Zeina Tannous, MD; Molly Wanner, MD, MBA

**WEBD Award Recipients:**

Lilit Garibyan, MD, PhD

Jolien Robijns, PhD

Juanita Anders, PhD

Suzanne Kilmer, MD

**WEBD Live Panelists:** R. Rox Anderson, MD; Eric Bernstein, MD, MSE; Jay Bhawalkar, PhD; Suzanne Kilmer, MD; Zakia Rahman, MD

**WEBD Event and Award Sponsored by:**

2:30 PM - 3:40 PM

**ePoster Town Hall Presentations - Session 2**

**Section Chairs:** Hans-Peter Berlien, MD; Anthony M. Rossi, MD

Special Clinical and Scientific ePoster Town Hall sessions will feature top ePosters, presented live, with an opportunity for audience questions. Topics in this session include imaging/diagnostics, injectables/topicals, body contouring/fat, and scars.

2:30 PM - 3:40 PM

**NON-CME Industry White Paper Presentations - Session 2**

**Section Chairs:** Jason Pozner, MD; Lesley Clark-Loeser, MD

Industry White Papers are focused on research and/or application of laser, light, and energy-based devices for biomedical application or product research in combination with such devices. Topics in this session include optical coherence tomography, combination therapies, laser-assisted drug delivery, and picosecond lasers.

3:45 PM - 5:00 PM

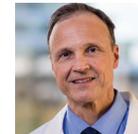

**Cutting Edge: Laser and Skin**

Hear the luminaries share the latest in the recent offspring of selective cryolysis, expanded application of laser-assisted drug delivery, laser-based x-ray sources for disease detection and treatment, powerful enhancements to current technologies, why there's more than diet and exercise, plus an FDA update.

**Section Chairs:**

J. Stuart Nelson, MD, PhD

E. Victor Ross, MD

**Speakers:** R. Rox Anderson, MD; Roy Geronemus, MD; Christopher Barty, PhD; Robert A. Weiss, MD, FAAD; Dieter Manstein, MD, PhD; Neil Ogden, MS BME

The conference concludes with Presidential messages from 2020-21 President, Thomas Rohrer, MD and 2021-22 President, Henry H.L. Chan, MD, PhD, FRCP.

For the latest details, schedules, disclosures, and CME/CE credit information visit [conference.aslms.org/2021](http://conference.aslms.org/2021)

## ON-DEMAND SESSIONS

The following sessions from May 15-16 are also available on-demand. Consult the live program for more details on these sessions. Please note that CME/CE credit available for an on-demand session may be lower than the live session due to no live Q&A segment.

### ABSTRACTS, EPOSTERS, AND WHITE PAPERS

- » Abstracts | Basic Science and Emerging Technologies
- » Abstracts | Clinical Applications (A, B, C, and D Sessions)
- » Abstracts | Early Career Clinical and Scientific
- » Abstracts | ePoster Town Hall Presentations
- » NON-CME Industry White Paper Presentations

### SPECIAL SESSIONS

- » Plenary Session
- » Non-CME Tech Connect
- » Early Career Pearls for Clinical Practice
- » NON-CME Clinical Research Pearls: All You Need to Know About FDA, IRB, and Industry
- » NON-CME Celebration of ASLMS Women in Energy-Based Devices

### NON-CME INDUSTRY WEBINARS

- » NON-CME Industry Webinar | BTL | The HIFEM Journey - Past, Present, Future
- » NON-CME Industry Webinar | Candela | Vbeam Pearls: 20 Years of Experience
- » NON-CME Industry Webinar | Cherry Imaging | Title TBD
- » NON-CME Industry Webinar | Lutronic | Intelligent 3rd Generation Muscle Activation with Accufit™
- » NON-CME Industry Webinar | Merz Aesthetics | Ultherapy: The Gold Standard
- » NON-CME Industry Webinar | Sciton | Praise to the Platform - mJoule provides treatment options from head to toe!
- » NON-CME Industry Webinar | Sofwave | Key Industry Leaders Exclusive Panel
- » NON-CME Industry Webinar | Sofwave | SUPERB™ the Newest in Ultrasound Technology
- » NON-CME Industry Webinar | Solta Medical | Diode vs. Erbium/Thulium: Is there room in your practice for both?

## ON-DEMAND ONLY

The following activities are available on-demand only on the virtual event platform through July 15, 2021.

### ABSTRACTS | NON-CME

Due to ACCME requirements regarding commercial interest, these abstracts are not for credit.

### EPOSTER GALLERY

View CME and Non-CME ePosters through the ePoster tab. Search by author, title or subtopic.

### WORKSHOPS

#### Genitourinary Health: Safety and Scientific Evidence GU Health

**Director:** Eric Sokol, MD

Learn about up-to-date efficacy and safety study outcomes from peer reviewed research trials, and different types of energy-based therapies used to treat gynecologic and urologic conditions.

#### Imaging and Diagnostics for Cancer

**Directors:** Milind Rajadhyaksha MS, PhD; Zeina S. Tannous, MD

Review imaging technologies, including presentation of at-the bedside experiences of current users in clinics, along with the pros and cons and potential benefits.

#### Laser Safety in the Practice Environment

**Directors:** Catherine M. DiGiorgio, MD; Sandy S. Tsao, MD

Understand state regulatory laws and ANSI guidelines to implement appropriate laser safety measures in your office. Learn safety precautions and protocols, anesthetics, management of laser plume and complications.

#### Managing Side Effects and Complications of Laser and Energy-Based Device Treatments

**Directors:** Firas Al-Niami, MD; Omer Ibrahim, MD

Learn how to communicate with patients regarding actual risks and side effects, plus how to handle unhappy patients and complications. Learn the breadth of possible side effects and risks associated with certain devices and procedures.

#### Translating the Basic Science of Radio Frequency and Microwaves into Clinical Applications Translational Research

##### Applications

**Directors:** Walfre Franco, PhD; Boncheol L. Goo, MD, MSc

Learn how radiofrequency and microwave energy affect cutaneous and subcutaneous tissues. Review various clinical applications, including treatment algorithms and patient outcomes. Learn the development path of energy-based devices from concept to clinical utilization and adoption.

#### Treatment Approaches for Challenging Vascular Lesions

**Director:** Pablo Boixeda, MD, PhD

Learn how and when to use vascular lasers, endpoints, challenging cases and non-vascular uses of these lasers.

#### Treatment Options for Skin of Color

**Directors:** Murad Alam; MD, MSCI, MBA; Henry H.L. Chan, MD, PhD, FRCP

Learn means and ways to adjust laser and energy-based device parameters to get the optimal outcome. Treatments include pigmentary conditions, vascular lesions, skin tightening, rejuvenation, and scars, as well as complications.

#### NON-CME STM Special Workshop: Basic Science

##### Photothermal Nanoparticles

**Director:** Nicole Levi-Polyachenko, PhD

Topics covered include gold nanoparticles, photothermal polymer nanoparticles, and Prussian blue nanoparticles and immune response. Using photothermal nanoparticles for warming cryopreserved tissues and photothermal sensitization of breast cancer to radiation will also be discussed.

## Clinical Indications for Laser and Energy-Based Devices in the Pediatric Patient

**Directors:** Gerald N. Goldberg, MD; Andrew C. Krakowski, MD

Learn specific approaches and device parameter considerations for the treatment of scars, vascular lesions and pigmented lesions in pediatric patients in a case-based setting. Stabilization, pain management, sedation, and anesthesia for specific conditions will also be discussed.

## Drugs and Energy-Based Device Synergies

Translational Research

**Director:** Merete Haedersdal, MD, PhD, DMSc

Understand the basics of the interaction between laser settings, drug uptake and clinical skin reactions and how to safely apply devices and drugs in combination. Scar management, dermatology-oncology and cosmetic procedures will be covered.

## Full Spectrum of Body Contouring

**Directors:** Mathew M. Avram, MD, JD; A. Jay Burns, MD

Learn the latest in fat removal and body contouring technologies and treatments. Muscle stimulation and cryolipolysis technologies will be covered, as well as non-invasive methods without cooling.

## Optimizing Outcomes in Genitourinary Health

GU Health

**Director:** Macrene R. Alexiades, MD, PhD

Learn how and when to incorporate devices into the care of women's genitourinary conditions to optimize patient outcomes. Technologies include Fractional CO2 and Erbium, Radiofrequency and HIFEM.

## Treating the Periorbital Area - A Multispecialty Approach

**Directors:** Brian S. Biesman, MD; Girish S. Munavalli, MD, MHS

Learn relevant anatomy and utilize a decision-making tree when choosing energy-based devices or light-based devices in the periorbital area. Learn how to utilize injectables with energy-based devices for skin textural concerns.

## Updates in Basic Science of Photobiomodulation

Basic Science

**Directors:** Juanita J. Anders, PhD; David Baxter, TD, DPhil, MBA

Learn the mechanistic basis of non-pharmacological pain control related to photobiomodulation treatment and the role of non-visual opsins in various tissues and how these receptors function in photobiomodulation.

The American Society for Laser Medicine and Surgery (ASLMS) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

# EXPLORE : CONNECT

*Enhance your conference experience through resources and networking.*

## Innovations Center

### Industry Booths

Make time to visit our industry partner booths, meet with staff, and browse their digital resources, including videos and handouts that you can save to your personal eBag. You will be able to request appointments with companies through SmartMatch® Appointments in the Attendee Lounge.

### Platinum Sponsors

- » Allergan Aesthetics  
an AbbVie Company
- » Cynosure
- » Solta Medical

### Gold Sponsors

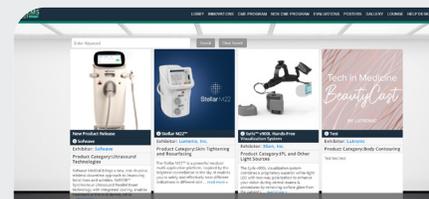

- » Lumenis, Inc.
- » Lutronic

### Silver Sponsors

- » BTL
- » Candela

# ATTEND

**1** REGISTER TODAY!  
*conference.aslms.org/2021*

**2** VISIT THE ATTENDEE SERVICE CENTER TO:  
» UPDATE YOUR PROFILE  
» PLAN YOUR SCHEDULE

**3** DOWNLOAD THE MOBILE APP  
AVAILABLE 2 WEEKS PRIOR TO CONFERENCE

**4** ACCESS THE VIRTUAL PLATFORM FOR THE LIVE CONFERENCE ON MAY 15-16.

**5** ACCESS ON-DEMAND CONTENT THROUGH THE VIRTUAL PLATFORM UNTIL JULY 15.

At each step of the way, we will send you an email with valuable information, tips, and links.  
Add [registration@aslms.org](mailto:registration@aslms.org) to your address book and watch for our emails!

# ASLMS 2021 Virtual

## JOIN US MAY 15-16, 2021

### Registration Fees

#### FULL CONFERENCE

- » Includes the Live Conference on May 15-16, plus access to the Innovations Center and On-Demand content until July 15, 2021\*.
- » Special offer for qualified Nursing/Allied Health – conference registration includes a Half-Day Nursing/Allied Course on June 19, 2021.

MEMBER	STUDENT MEMBER	NON-MEMBER
\$499	\$99	\$699

Student pricing is available for member students, residents, and fellows.

Receive a 20% discount if registering 3-9 individuals from the same affiliation and a 25% discount if registering 10 or more! All registration forms must be completed and submitted at the same time.

\*Even if you cannot attend the live conference, you may register at any time through June 30 to access the on-demand content, available through July 15, 2021.

**REGISTER TODAY!**
